## **REASONS FOR ALLOWANCE**

- 1. This Office Action is responsive to the RCE and amendment filed on 6/21/05.
- 2. Claims 23-38 and 40-56 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

References 6075411, 6104241, 6188732, 6275685 and 6400774 are additionally cited because they are pertinent to the claimed invention.

-Regarding to independent claims 23 and 44-56, none of prior art of record teaches or suggests the method and associated system as claimed. Helms teaches the invention except he fails to teach, at least, in combinations of procedures/devices of receiving a plurality of different digital signals to be transmitted, said different digital signals to be transmitted on different carrier frequencies; modulating said different digital signal at modulation frequency; and converting a composite digital signal comprising said different digital signal at the respective carrier frequencies to analog form, thereby generating a composite analog signal. With reasons set forth on pages 29-34, in REMARKS of the amendment filed on 6/21/05, it would not have been obvious for one skilled in the art to implement Helms in view of Carney et al in order to lead such the implementation to the claimed invention. It would also not have been obvious for one skilled in the art to implement Helms, Carney et al or their combination in view of other prior art of record in order to lead such the implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
